## Let Our Data Talk

**Facilitated Discussion by Statistician and Sociologist :  
Collaboration in Open Government Data Ecosystem**

The Third Open Data Conference presents four webinars and fifteen pre-recorded videos on the latest applications of open data, research being conducted on COVID-19, Enterprise 4.0, digital marketing, managing resources to meet diverse user demands and so on.

Let's talk with new perspectives of the values open data bring to the Data-driven economy.

**Registration deadline: 22 Mar 2021      Fee: Free of charge      Language: English**

Professor John BACON-SHONE (Chair)  
 Director, Social Sciences Research Centre  
 The University of Hong Kong

Dr Eric SCHULDENFREI  
 Head, Department of Architecture  
 The University of Hong Kong

Mr Victor LAM  
 Government Chief Information Officer  
 HKSAR Government

Mr Eric TSE  
 Assistant Privacy Commissioner for  
 Personal Data (Public Affairs)

Dr Kenneth TANG  
 Chairman of the Spatial Data  
 Infrastructure Committee  
 Smart City Consortium (SCC)

Programme details and registration

**Panel Discussion**

24 MAR 2021 (WED) 2:00pm – 4:00pm	<b>Panel Discussion 1:</b> “Privacy-safe ways to deal with shared data on virus notification with Unique Building ID”
31 MAR 2021 (WED) 2:00pm – 4:00pm	<b>Panel Discussion 2:</b> “How can Digital Tech Competence help in Employment and foster Entrepreneurship?”
14 APR 2021 (WED) 2:00pm – 4:30pm	<b>Panel Discussion 3:</b> “BIM, GIS, Common Spatial Data Infrastructure and Smart City: Challenges & Opportunities”
15 APR 2021 (THU) 3:00pm – 5:00pm	<b>Panel Discussion 4:</b> “Possibilities Unbound with Open Data of Public Transport Operators”

**Programme Rundown for The Third Open Data Conference**

**Conference Title: "Let Our Data Talk"**

Dates: 24 & 31 March, 14 & 15 Apr 2021

Time: 2:00 p.m. – 4:00 p.m./ 3:00pm – 5:00pm

Live-stream Zoom Webinar on HKU Knowledge Exchange Office FB Channel

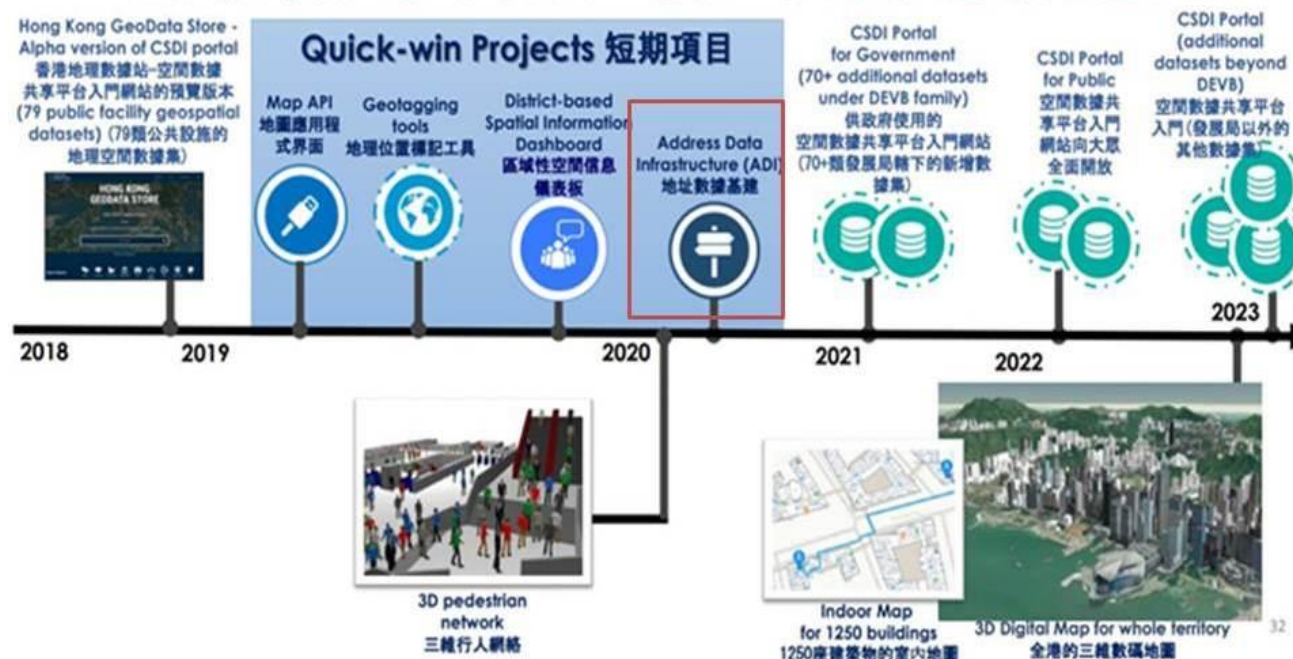

**Organizer: Open Data Initiative, Social Sciences Research Centre, HKU**

**Co-organizer: HKPC**

**Conference objectives:**

- (1) To adopt better contact-tracing methodologies in fighting with COVID-19, as demonstrated by a use case on how government departments can improve operational efficiencies by sharing data via established framework of common data service portal to eliminate duplicated efforts on data-collection.
- (2) To amplify economic benefits of Open Data by promoting culture of innovation, and in creating new business opportunities and new jobs through provision of the Unique Building ID as the easiest-to-match dataset facilitating continual utilization from the private sectors. This move will practically stimulate data sharing from the private sectors, improve collaboration, and support collaborative innovation.
- (3) To rebuild trust and improve reputation of the Hong Kong Government by communicating with the general public through media partners regarding solid economic and social values of utilizing the Unique Building ID upon various innovations emerging in the open economy of Hong Kong collaborating with the Greater Bay Area;
- (4) To foster better decision-making in formulation of economic and social policies, to enhance the quality of life, and to strive for more inclusive societies.

## Implementation Plan of CSDI and 3D Digital Map 空間數據共享平台及三維數碼地圖的推行計劃

**Expected Participants:**

Based on past experiences from initial two Open Data Conferences held, 300 registrations, and 250 actual participants:  
Civil Servants: 30%, Business: 30%, Start-ups: 5%, Academics: 10%, University students: 15%, NGOs: 10%

\*Media: 3 Journalists (SCMP, HK01, Ming Pao)

\**Special efforts will be spent on encouraging participations from the business sectors and targeted public personages.*

\*eDM will reach 25,000+ contacts. Posters will be distributed to +100 secondary schools and +100 university faculties.

**Trainings for working-level staff (Civil Service & Private Sector):**

(1) Big Data & Open-source Fundamentals Workshop, Dec 2020 and Q1-2, 2021

**Training for managerial grade staff (Civil Service & Private Sector):**

(2) AWS x Open Data Initiative, SSRC-HKU “Innovative Leadership with Open Data”, hosted by HKPC, Q2, 2021.

**Expected Impact to the Community:**

(1) Open Data is a worldwide movement, modernizing governments and engaging citizens by making available the data that drives government. When data is findable, machine-readable, and without limitations on its uses, the data informs the public and the private sectors who can realize on economic benefit and develop innovative solutions.

(2) Research from Lateral Economics showed that Open Data creates 0.5% more GDP as compared to paid data. In 2013, McKinsey estimated a global market, powered by Open Data from all sectors, would create an additional \$3tn. to \$5tn. a year. Open Data is helping to fuel innovations and has a proven and significant economic impact on the Greater Bay Area, especially President Xi announced that Shenzhen would become the Data Hub for the region in October 2020.

(3) The “open” language of Open Data lowers the barriers to gain access to data, raising the potential insights possible. For big data analytics and smart city development, the sharing and accessibility of data is the key to connecting systems, gaining insights, revealing effectiveness of charts, diagnosing problems, spotting trends, identifying patterns, predicting problems, and comparing competitiveness.

(4) This Conference will provide the necessary insights into the existing problems and gaps on data sharing, what are the major obstacles in preventing a greater success and becoming more competitive. It will also explore on Hong Kong’s specific governmental framework and societal makeup in transitioning into a digital economy.

Maximum Length of Time	Topics of Pre-recorded Talks (Subject to change)	Remark: TBC = To be confirmed
8 mins	<b>Open Data Governance - International Standards</b> Mr. Benjamin ZHOU Researcher of HK Open Data Index, Internet Society Hong Kong Chapter	Confirmed
8 mins	<b>Data Literacy - The Most Wanted Skill in the Digital Economy</b> Dr. Toa CHARM Chairman of OpenCertHub	Done
20 mins	<b>How Cloud Computing empowers collaboration and innovation using Open Data &amp; Shared Data?</b> Mr. Owen CHONG Senior Business Development Manager, Amazon Web Services	Confirmed
15 mins	<b>Topic TBC</b> Mr. Thomson LAI Digital Transformation Lead, Greater China/ Executive Director, Innovative Solutions AECOM	Confirmed
6 mins	<b>Development of a Common Spatial Data Infrastructure</b> Dr. Bruce CHONG Director - Urban Sustainability, Climate Resilience & Smart City ARUP	Confirmed
8 mins	<b>Applying BIM in Smart Cities</b> Dr. Wendy LEE Regional Manager, HK& Macau Autodesk Far East Ltd.	Confirmed
10 mins	<b>Automate and contextualise digital ads with Open Data</b> Mr. Pili HU Technical Solutions Consultant, Google (Hong Kong) Limited	Confirmed
10 mins	<b>Managing Resources to Meet Diverse User Demands</b> Mr. Leo YU Deputy Commissioner, Census & Statistics Department	Confirmed
12 mins	<b>How 5G and Pandemic Open Data foster Enterprise 4.0</b> Mr. Jorge LEUNG Head of Digital Enablement, Digital Transformation Division Hong Kong Productivity Council	Done
10 mins	<b>How can Hong Kong's FinTech development benefit from Common Spatial Data Infrastructure?</b> Mr. Emil CHAN Chairman of the FinTech Committee Smart City Consortium (SCC)	Done

## Unlocking the Value of Open Data: Best practices and quick-wins for using open data in HK

June 9 | Sat | 9 am  
2018 | | 5 pm

Hall II, Lee Shau Kee Lecture Centre  
Centennial Campus, HKU

Hong Kong has been gearing up to unleash the full potential of open data for innovation and competitiveness over the past seven years. According to "The Economist", the world's most valuable resource is no longer oil, but data. When government data are made accessible and re-usable, they enable individuals, organizations and even governments themselves to innovate and collaborate in new ways. Businesses and entrepreneurs are using open data to better understand potential markets and build new data-driven products. Open data are key resources for accelerating economic growth and social innovation.

As a launch event of the Open Data Initiative of HKU Social Science Research Centre, this Open Data Conference brings together data owners from public and private sectors, as well as open data practitioners to share best practices and quick-wins of using open data to diagnose problems and raise competitiveness of Hong Kong.

Panel discussion on how law and regulation might help facilitate open data.

### Keynote Speaker

The Hon. Nicholas W. Yang, JP  
Secretary for Innovation and Technology  
The Government of the Hong Kong SAR

### Panel Speakers:

Mr. Stephen Kai-yi WONG  
Privacy Commissioner for Personal Data,  
Hong Kong

Professor John Bacon-Shone (Chair)  
Director, Social Sciences Research Centre  
The University of Hong Kong

Mrs. Stacy Belcher Lee  
University Archivist  
The University of Hong Kong

Professor Andy Man-chung CHIU  
Tony Yen Professor of Law, Law School, Beijing Normal University

### Expected outcomes:

- Civil servants with or without Open Data in their projects will find it valuable to engage with developers who can help them better present their data and make the best use of it. Real life overseas examples relevant to Hong Kong will show how overseas governments tackle the legal and political concerns in their projects.
- NGO leaders can diagnose the social problems they are addressing through data-driven reports.
- Academic researchers can learn of best practices.
- University students and business professionals can link up to unlock the economic and social value of open data.

Users/analysts of Open Data would benefit from linking with developers who can enhance their use of data through Apps.

Registration Deadline: 7 Jun 2018
